Tool-Free Geodesic Event Dome

Starting Price: \$7,999

ABOUT

Differentiate from your competition and capture more attention with the 100% tool-free Geodesic Event Dome by TentCraft. The entire dome can be customized to match your brand and create a specific experience – from custom print, to windows, doors, counters, TV mounts, mobile power, HVAC, and more – your imagination is your only limitation. The frame is 60% lighter than the traditional steel frame domes, making it easier to transport and setup.

- Tool-free aluminum frame
- 500 denier polyester dome cover
- 3' heavy-duty stakes and guy straps
- All-terrain transport wagon
- Lifetime frame warranty

SIMPLIFIED ASSEMBLY

With the advantage of an anodized aluminum frame, our Geodesic Dome is 1/3 the weight of traditional steel frames. Anodized aluminum delivers a much higher strength-to-weight ratio that reduces the number of pole supports without sacrificing durability. We attacked these pain points by introducing a simplified snap-in pole system and zip cover.

POSSIBILITIES

As a custom manufacturer, we have the ability to customize your dome to your exact specifications. Below are a few different styles with windows, doors, counters, and more to help you get started.
