 TentCraft | **mighty**TENT FRAME

5 YEAR WARRANTY

We made it better. Your mightyTENT frame is manufactured and fabricated by skilled craftsmen in our U.S. facility with premium materials. If any of these products are defective due to manufacturer's error, we'll repair or replace them for 5 years.

In our experience, most damage occurs as a result of improper ballasting or lack of supervision. A heavy gust of wind can cause your tent to become a hang glider, which is dangerous and likely to result in damage when it crashes back to Earth. Your tent should not be left up unattended overnight as weather is unpredictable and your tent is not designed to function as a semi-permanent structure. The mightyTENT 5-Year Frame Warranty will not cover damage attributed to any of the following:

- Shipping damage not noted with shipper at time of delivery
- Damage consistent with normal wear and tear
- Items that are lost or stolen
- Damage due to negligence or improper use/storage/ballasting
- Damage caused by extreme weather

OVER >>>

Damage to your mightyTENT that is not covered under this warranty may be repaired or replaced at a reasonable cost. Replacement parts are available and TentCraft commits itself to working with you to ensure any damaged products are restored to a functioning state as quickly as possible.

Printed materials may degrade or discolor over time with standard use and exposure to outdoor elements. The basic functionality of your system should stand the test of time. Your mightyTENT will last longer and perform better with proper use, care, storage and maintenance. This warranty applies exclusively to the original purchaser of the product. Repairs or replacements will be at the sole discretion of TentCraft. Warranty is void if any frame modifications or customizations are made. All Terms & Conditions apply.

Please see your quote or TentCraft.com/terms for details.

Fire certificate and 7-year canopy warranty available for mightyTENT at TentCraft.com/support.
